

TRUSTED LITURGICAL DESIGNERS,
ARTISTS AND ARTISANS FOR OVER HALF A CENTURY

Fundraising Support

OVERVIEW

Rohn & Associates Design are experts at communicating your vision in detail to help you raise the funds required to transform your vision into reality. Nothing promotes fundraising better than clear communication. The Rohn team has developed time-proven tools and methodologies that not only enhance the communication process during a project with easy-to-follow instructions, but more importantly, help maximize fundraising with compelling presentations and engaging materials. We educate benefactors, parishioners, and friends of the church by developing impactful collateral, explaining the needs, designs, theology, specifications, timeline and project costs yielded from meetings with the Pastor and Parish Building/Finance Committees. This critical step enables us to translate your input and vision along with our professional recommendations into a viable plan. These marketing programs help build enthusiasm and gain the support of your parishioners.

FUNDRAISING TYPES

3D Views

If one picture is worth a thousand words, 3D views are worth a million. Professionally created 3D images that reveal your liturgical design vision can help you raise the funds required to get the job done. Our high quality designs use the latest technology and are nearly indecipherable from the real thing.

Memorial Books

A time-tested fundraising method for churches is the remembrance of living or deceased friends or relatives. Our team has a proven track record of helping churches raise money with memorial naming opportunity projects. We will work closely with you to identify ideal memorial items, create compelling fundraising materials, and provide the guidance you need to effectively generate money quickly.

Posters

There is no better way to communicate your liturgical design vision than with captivating graphics. Our team of artists can create graphics or posters that can convey your vision better than any verbal or textual description. Whether they are used in meetings, or placed strategically on your church or campus, our fundraising posters can help you quickly shepherd your project along.

Brochures

A persuasive brochure can make a world of difference when it comes to communicating the entire scope of a project. In addition to being informative, a brochure is a critical tool in both fundraising and education. Our team can create effective brochures that will deliver a clear and concise message to your target audiences.

Additional Resources

These are just a few examples. We are known for our ability to think outside of the box for each project to develop unique, effective and cutting-edge fundraising opportunities to help you meet your goals.

PROCESS AND FEE SCHEDULE

Whether you are planning a large project that includes a comprehensive Education Program and Master Plan for a building renovation, restoration, new church or chapel, or a smaller more specified one involving interior design, new sacred art, art restoration, new or restored statues, new or refurbished liturgical furniture, lighting, acoustics and more, our fundraising specialists will meet with you over the phone or in person to lay out the steps involved to meet your goals and share your vision. We can provide you with a fee schedule specific to your unique project upon request.
